

## Swarm Coordinator Registration

If you are a swarm coordinator for a beekeeper association or other organisation, you can register to use the Bee.Watch “Swarm Harvest” management system free of charge. A User ID and temporary password will be emailed once your details are registered within Bee.Watch.

Swarm alerts can be raised by all Bee.Watch users (via the App or Webpage) and the General Public through the Bee.watch website API (Application Program Interface), without the necessity for a phone call or for phone numbers to appear on the internet.

The system was trialled in 2017. Fewer swarm occurrences in 2018 increased the awareness of swarm values and the need for efficient collection. New for 2019 is the **iWas** (“i Want a swarm”) feature. **iWas** allows Bee.Watch App ‘Beekeeper’ Users to notify a ‘Swarm Collector’ of their need for a swarm.

### The Bee.Watch App: Swarm Coordinator

Please complete the following contact details and email to [lb@uwatch.co.uk](mailto:lb@uwatch.co.uk).

- Name: .....
- Association Name: .....
- Address: .....
- Postcode: .....
- Email Address: .....
- Telephone number\*: .....

\* A Swarm Coordinator’s telephone number will only be visible to registered Bee.Watch App ‘Beekeeper’ and ‘Swarm Collector’ Users, who choose to become affiliated to a Swarm Coordinator.

Please call or e-mail us if you require further information.
